Tygtrycken avbildade i denna katalog är screentryk på hand färgad bomull i "tie dye" teknik. Varje textiltryck får därför en unik bakgrund. En del av textiltrycken har pressats in i laminerade björkbrickor av Formpress i Farjestaden.

The prints displayed in this catalog are silk-screened onto pure cotton that has been individually printed and tie-dyed by hand to produce a distinctly original background. Each batik is thus unique in its characteristics.

Some of the designs are incorporated in trays in collaboration with the Swedish factory Formpress AB Farjestaden.
